Minor Matsuru's father died. He was told by his grandmother that he had to choose and live under the tree at a certain place that she could leave to the US \$200 per a month. By value from *Yamagata-kyōto* "Kaguya" to look for a new place for him. But unfortunately because of that no tree matches and "Kaguya" doesn't have enough money to live on a salary that she received. And on top of it, there are various things that she has to do.
